

# MODULE 1

## An Introduction To Resin Bound

---

**1 Day course. Learn the all important theory and gain some practical experience.**

**8 hours | £125 + VAT per person**

Thank you for enquiring about our Resin Bound training course.

At Rhino, our courses differ from many others on offer in that they are delivered by highly experienced installers who can offer a real hands-on insight into the methods and practical aspect of a successful resin bound installation.

By the end of the 1-day course, you will have all of the knowledge required to complete a competent installation of Resin bound surfaces, all you need then is to get some installations under your belt to become a great installer.

From base build ups to the install itself and everything in between this course provides a step by step guide on how to achieve a superb resin bound installation.

The course commences at 9am and will finish at around 4.30pm.

Course notes and installation manuals will be provided at the end of the course but feel free to bring note pads to take any additional notes.

A light lunch will be provided. Please advise us if you have any special dietary requirements.

As the afternoon will be a practical session, we advise delegates to bring a change of clothes in case they get resin on their clothing.

Please see attached for map and directions to us.

The course agenda is as follows:

### **AM - Theory**

Introduction to resin based surfacing, the different systems and benefits over alternative surfaces  
Suitable surfaces for application  
(inc. recommended base build up)  
Installation process and requirements  
Product info/H&S data

### **PM - Practical**

Introduction to equipment and tools  
Laying resin surfaces If you have any questions please do not hesitate to contact us
