

MODULE 3

On-site Training

6 hrs | £399 + VAT
1 day support on your first installation

Your first installation can be daunting. With Module 3, one of our experienced installers will join you for your first installation and will bring along a Forced Action Mixer for you to use on the day - saving you the expense of buying one for your first job. During the day, our installer will guide you through the process of installing and work alongside you to ensure a top quality install is delivered.

Please note: This service is only available at this price within 80 miles of our offices in Wellingborough. Please contact us for a job specific price if you are further than 80 miles from us.
